NOTIFICATION OF NON-COMPLIANCE WITH THE REQUIREMENTS OF 37 CFR
41.37(c)

The brief does not contain a statement of the status of all the claims, e.g., rejected, allowed or confirmed, withdrawn, objected to, or canceled, and identification of the claims being appealed as required by 37 CFR 41.37(c)(1)(iii). In addition, appellant should not include extraneous material such as prosecution history of the claims in this section.

The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number, and to the drawing, if any, by reference characters; and/or does not identify the structure, material, or acts described in the specification as corresponding to each claimed function for every means plus function and step plus function for each independent claim involved in the appeal and for each dependent claim argued separately by reference to the specification by page and line number, and to the drawing, if any, by reference characters, as required by 37 CFR 41.37(c)(1)(v).

Appellant should also remove the set of original claims from the claim appendix since it is for copy of the appealed claims that were finally rejected.
